**Coverage Summary**

### Radiologic Diagnostic Procedures

**Policy Number:** R-002  **Products:** UnitedHealthcare Medicare Advantage Plans  **Original Approval Date:** 04/02/2008

**Approved by:** UnitedHealthcare Medicare Benefit Interpretation Committee  **Last Review Date:** 05/16/2017

### Related Medicare Advantage Policy Guidelines:

- Computed Tomography (NCD 220.1)
- Infrared Therapy Devices (NCD 270.6)
- Magnetic Resonance Imaging (NCD 220.2)
- Magnetic Resonance Spectroscopy (NCD 220.2.1)
- Mammograms (NCD 220.4)
- Percutaneous Image-Guided Breast Biopsy (NCD 220.13)
- Portable Hand-Held X-Ray Instrument (NCD 220.10)
- Single Photon Emission Computed Tomography (SPECT) (NCD 220.12)
- Thermography (NCD 220.11)
- Transillumination Light Scanning or Diaphanography (NCD 30.9)
- Ultrasound Diagnostic Procedures (NCD 220.5)

This information is being distributed to you for personal reference. The information belongs to UnitedHealthcare and unauthorized copying, use, and distribution are prohibited. This information is intended to serve only as a general reference resource and is not intended to address every aspect of a clinical situation. Physicians and patients should not rely on this information in making health care decisions. Physicians and patients must exercise their independent clinical discretion and judgment in determining care. Each benefit plan contains its own specific provisions for coverage, limitations, and exclusions as stated in the Member’s Evidence of Coverage (EOC)/Summary of Benefits (SB). If there is a discrepancy between this policy and the member’s EOC/SB, the member’s EOC/SB provision will govern. The information contained in this document is believed to be current as of the date noted.

The benefit information in this Coverage Summary is based on existing national coverage policy, however, Local Coverage Determinations (LCDs) may exist and compliance with these policies is required where applicable.

---

## INDEX TO COVERAGE SUMMARY

1. **COVERAGE**
   
   1. Diagnostic Radiological Services (Inpatient or Outpatient)
      
      a. Diagnostic X-Rays
      
      b. X-Ray, Radium, and Radioactive Isotope Therapy
      
      c. Screening Mammogram
      
      d. Obstetrical Ultrasound
      
      e. Bone Density Studies
      
      f. Diagnostic Mammogram
      
      g. Ultrasonography/Ultrasound
      
      h. Computerized Tomography (CT scan)
      
      i. Single Photon Emission Computed Tomography (SPECT)
      
      j. Magnetic Resonance Imaging (MRI)
      
      k. Magnetic Resonance Angiography (MRA)
      
      l. Ultra Fast or Multislice CT
      
      m. Proton Emission Tomography
      
      n. Percutaneous Image-Guided Breast Biopsy
o. **Portable Hand-Held X-Ray Instrument**

2. **Examples of radiologic procedures that are not covered**
   
a. **Thermography**

b. **Infrared Devices**

c. **Ultra Fast CT Scanning for Screening Purposes**

   d. **Experimental or Investigational Procedures**

   e. **Transillumination Light Scanning or Diaphanography**

   f. **Magnetic Resonance Spectroscopy**

II. **DEFINITIONS**

III. **REFERENCES**

IV. **REVISION HISTORY**

I. **COVERAGE**

**Coverage Statement:** Diagnostic radiologic procedures are covered when Medicare criteria are met.

**Note:** Radiology prior authorization programs exist for some markets for MRIs, MRAs, PET scans and nuclear medicine studies. Reference materials are available at [Medicare Advantage Evidence Based Clinical Guidelines - Imaging 2016](http://www.cms.gov/medicare-coverage-database/coverage-summary.html). (Accessed April 27, 2016)

**Guidelines/Notes:**

1. Diagnostic radiological services (inpatient or outpatient) used for screening, detection or treatment of disease, are covered when such services are determined to be reasonable and necessary. Examples include, but are not limited to:

   a. **Diagnostic X-Rays**

   See the following:

   Local Coverage Determinations (LCDs) exist for and compliance with these LCDs is required where applicable. See the following LCDs at [http://www.cms.gov/medicare-coverage-database/coverage-summary.html](http://www.cms.gov/medicare-coverage-database/coverage-summary.html):

   - Radiologic Examination., Chest
   - Chest X-ray Policy
   - Sinus X-rays

   (Accessed May 8, 2017)

b. **X-Ray, Radium, and Radioactive Isotope Therapy**

c. **Screening Mammogram**

   See the [Coverage Summary for Preventive Health Services and Procedures](http://www.cms.gov/medicare-coverage-database/coverage-summary.html)
d. **Obstetrical Ultrasound**
   Also see the [Coverage Summary for Maternity and Newborn Care](http://www.cms.gov/medicare-coverage-database/overview-and-quick-search.aspx).

e. **Bone Density Studies**
   Bone density studies are covered when criteria are met; see the [Coverage Summary for Bone Density Studies/Bone Mass Measurements](http://www.cms.gov/medicare-coverage-database/overview-and-quick-search.aspx).

f. **Diagnostic Mammogram**

g. **Ultrasonography/Ultrasound**

h. **Computerized Tomography (CT scan)**
   **Notes:**
   - For states with no LCDs, for uses of CT scans not specifically addressed by the NCD for Computerized Tomography (220.1), refer to the following for coverage guidelines:
     - For regions involved in the Radiology Prior Auth Program, see the Medicare Advantage Evidence Based Clinical Guidelines - Imaging 2017 for coverage guidelines.
     - For regions not involved in the Radiology Prior Auth Program, see the nationally recognized guidelines, i.e., MCG™ Care Guidelines.

i. **Single Photon Emission Computed Tomography (SPECT)**
   **Notes:**
For states with no LCDs, for uses of SPECT not specifically addressed by the NCD for SPECT (220.12), refer to the following for coverage guidelines:
- For regions involved in the Radiology Prior Auth Program, see the Medicare Advantage Evidence Based Clinical Guidelines - Imaging 2017 for coverage guidelines.
- For regions not involved in the Radiology Prior Auth Program, see the nationally recognized guidelines, i.e., MCG™ Care Guidelines.

j. Magnetic Resonance Imaging (MRI)

See the NCD for Magnetic Resonance Imaging (220.2). (Accessed May 8, 2017)

Notes:
- Local Coverage Determinations (LCDs) exist for MRI and compliance with these policies is required where applicable. These LCDs are available at http://www.cms.gov/medicare-coverage-database/overview-and-quick-search.aspx. (Accessed April 27, 2016)
- For states with no LCDs, for uses of MRI not specifically addressed by the NCD for MRI (220.2), refer to the following for coverage guidelines:
  - For regions involved in the Radiology Prior Auth Program, see the Medicare Advantage Evidence Based Clinical Guidelines - Imaging 2017 for coverage guidelines.
  - For regions not involved in the Radiology Prior Auth Program, see the nationally recognized guidelines, i.e., MCG™ Care Guidelines.
- For payment rules for NCDs requiring CED, see the Coverage Summary for Experimental Procedures and Items, Investigational Devices and Clinical Trials.

k. Magnetic Resonance Angiography (MRA)

See the NCD for Magnetic Resonance Imaging (220.2). (Accessed April 27, 2016)

Notes:
- Local Coverage Determinations (LCDs) exist for MRA and compliance with these policies is required where applicable. These LCDs are available at http://www.cms.gov/medicare-coverage-database/overview-and-quick-search.aspx. (Accessed April 27, 2016)
- For states with no LCDs, for uses of MRA not specifically addressed by the NCD for MRI (220.2), refer to the following for coverage guidelines:
  - For regions involved in the Radiology Prior Auth Program see the Medicare Advantage Evidence Based Clinical Guidelines - Imaging 2017 for coverage guidelines.
  - For regions not involved in the Radiology Prior Auth Program, see the nationally recognized guidelines, i.e., MCG™ Care Guidelines.
- On June 3, 2010, CMS made the determination that the existence of a separate NCD for MRA was unnecessary and moved/merged the MRA NCD 220.3 to the MRI NCD 220.2, and allowed the local Medicare contractors to cover (or not cover) all...
indications of MRA (and MRI) that are not specifically nationally covered or nationally non-covered. The CMS decision memo is available at http://www.cms.gov/transmittals/downloads/R123NCD.pdf. (Accessed April 27, 2016)

l. **Ultra Fast or Multislice CT**
   Ultra Fast or Multislice CT is covered when criteria are met. See the *Coverage Summary for Computed Tomographic Angiography (CTA)/Electron Beam Computed Tomography (EBCT) of the Chest*.

m. **Proton Emission Tomography**
   Proton Emission Tomography* is covered when criteria are met; see the *Coverage Summary for Positron Emission Tomography (PET)/Combined PET-CT (Computed Tomography)* for coverage criteria and information.

n. **Percutaneous Image-Guided Breast Biopsy**
   See the *NCD for Percutaneous Guided Breast Biopsy (220.13)*. (Accessed May 8, 2017)

o. **Portable Hand-Held X-Ray Instrument**
   See the *NCD for Portable Hand-Held X-ray Instrument (220.10)*. (Accessed May 8, 2017)

2. The following are examples of radiologic procedures that are not covered. This is not an exhaustive list of non-covered radiologic procedures. Any test that is not reasonable or necessary to diagnose, treat or screen for an illness or injury is not covered.

a. **Thermography**
   See the *NCD for Thermography NCD (220.11)*. (Accessed May 8, 2017)

b. **Infrared Devices**
   See the *NCD for Infrared Therapy Devices (270.6)*. (Accessed May 8, 2017)

c. **UltraFast CT Scanning for Screening Purposes**
   See the *Coverage Summary for Gastroesophageal and Gastrointestinal (GI) Services and Procedures* and the *Coverage Summary for Computed Tomographic Angiography (CTA)/Electron Beam Computed Tomography (EBCT) of the Chest*.
   Note: This is never covered for screening, i.e., in the absence of signs, symptoms or disease.

d. **Experimental or Investigational Procedures**
   See the *Coverage Summary for Experimental Procedures and Items, Investigational Devices and Clinical Trials*

e. **Transillumination Light Scanning or Diaphanography**
   See the *NCD for Transillumination Light Scanning and Diaphanography (30.9)*. (Accessed May 8, 2017)

f. **Magnetic Resonance Spectroscopy**
   See the *NCD for Magnetic Resonance Spectroscopy (MRS) (220.2.1)*. (Accessed May 8, 2017)
II. DEFINITIONS

**Diagnostic Services:** A service is "diagnostic" if it is an examination or procedure to which the patient is subjected, or which is performed on materials derived from a hospital outpatient, to obtain information to aid in the assessment of a medical condition or the identification of a disease. Among these examinations and tests are diagnostic laboratory services such as hematology and chemistry, diagnostic x-rays, isotope studies, EKGs, pulmonary function studies, thyroid function tests, psychological tests, and other tests given to determine the nature and severity of an ailment or injury. See the Medicare Benefit Policy Manual, Chapter 6, §20.4.1 Diagnostic Services Defined. (Accessed May 8, 2017)

See above

IV. REVISION HISTORY

05/16/2017 Annual review with the following updates:

- Guideline 1.h [Computerized Tomography (CT scan)]
  - Added a statement that LCDs are available
  - Deleted Added instruction to use the Radiology Prior Auth Program or nationally recognized guidelines for states with no LCDs or for uses of CT scans not specifically addressed by the reference NCD

- Guideline 1.i [Single Photon Emission Computed Tomography (SPECT)]
  - Added a statement that LCDs are available
  - Deleted Added instruction to use the Radiology Prior Auth Program or nationally recognized guidelines for states with no LCDs or for uses of SPECT not specifically addressed by the reference NCD

- Guideline 1.j [Magnetic Resonance Imaging (MRI)]
  - Deleted detailed guideline as the reference NCD provides the same guideline

- Guideline 1.n (Percutaneous Image-guided Breast Biopsy)
  - Deleted detailed guideline as the reference NCD provides the same guideline

- Guideline 1.o (Portable Hand-Held X-ray Instrument)
  - Deleted detailed guideline as the reference NCD provides the same guideline

Guideline 1 - deleted the following statement as this is now explained in the applicable guideline section of this Coverage Summary. The corresponding asterisk (*) in the applicable guideline section was also deleted.

*Radiology prior authorization programs exist for some markets for MRIs, MRAs, PET scans and nuclear medicine studies. Reference materials are available at the Medicare Advantage Evidence Based Clinical Guidelines - Imaging 2016.

05/17/2016 Annual review with the following updates:

- Guideline 1.f (Diagnostic Mammogram) – Deleted reference to the “Diagnostic Mammography” LCD and added reference to the LCDs for Breast Imaging Mammography/Breast Echography (Sonography)/Breast MRI/Ductography.

- Guideline 1.g (Ultrasonography/Ultrasound) - Deleted reference to the “Diagnostic
Mammography” LCD and added reference to the LCDs for Breast Imaging Mammography/Breast Echography (Sonography)/Breast MRI/Ductography.

- Guideline 2.c (UltraFast CT Scanning for screening purposes) – Added cross reference to the “Computed Tomographic Angiography (CTA)/Electron Beam Computed Tomography (EBCT) of the Chest” coverage summary.

06/16/2015  Annual review with the following updates:

- Updated reference link to the UnitedHealthcare Medicare Solutions Evidence Based Clinical Guidelines Radiology
- Guideline 1.d (Obstetrical Ultrasound) - Added reference link to the NCD for Ultrasound Diagnostic Procedures (220.5)
- Guideline 2.c (Ultra Fast CT Scanning for screening purposes) - Added reference link to the Coverage Summary for Gastroesophageal and Gastrointestinal (GI) Services and Procedures

04/21/2015  Re-review with the following updates:

- NCD 220.7 Xenon Scan and NCD 220.8 Nuclear Radiology Procedure were retired. Any references to these NCDs will be deleted.
- Guideline #1.j (Magnetic Resonance Imaging)
  - Added reference link to the list of Medicare approved clinical trials.
  - Added reference link to the Coverage Summary for Experimental Procedures and Items, Investigational Devices and Clinical Trials for payment rules for NCDs requiring CED.

04/01/2015  Replaced references to “Milliman Care Guidelines” with “MCG™ Care Guidelines”

06/20/2014  Annual review with the following updates:

- Guideline #1.a Diagnostic X-rays
  - Changed section from “Standard X-rays/plain-films” to “Diagnostic X-rays”
  - Added the reference to the Medicare Benefit Policy Manual, Chapter 15, §80 - Requirements for Diagnostic X-Ray, Diagnostic Laboratory, and Other Diagnostic Tests
  - Deleted the reference to the Medicare Benefit Policy Manual, Chapter 15, §90 - X-Ray, Radium and Radioactive Isotope
- Guideline #1.b X-Ray, Radium, and Radioactive Isotope Therapy - Added as separate section (from Guideline #1.a)
- Guideline #1.c Intravenous Pyelogram (IVP) - Deleted; no CMS reference available; falls under #1.a Diagnostic X-rays above
- Guideline #1.d Kidney, Ureter and Bladder (KUB) X-ray - Deleted; no CMS reference available; falls under #1.a Diagnostic X-rays above
- Guideline #1.n -Invasive Radiological Procedures - Deleted; no CMS reference available; falls under #1.a Diagnostic X-rays above
- Guideline #1.o Percutaneous Image-guided Breast Biopsy
  - Added the definition of Percutaneous image-guided breast biopsy from the Definition section (based on the reference NCD)
  - Added language based on the reference NCD to indicate:
    - Non-Palpable Breast Lesions
      - Medicare covers percutaneous image-guided breast biopsy using stereotactic or ultrasound imaging for a radiographic abnormality that is
non-palpable and is graded as a BIRADS III, IV, or V.

- **Palpable Breast Lesions**
  
  Medicare covers percutaneous image guided breast biopsy using stereotactic or ultrasound imaging for palpable lesions that are difficult to biopsy using palpation alone.

- **Guideline #1.p Portable Hand-Held X-ray Instrument**
  
  - Added the definition of Portable Hand-Held X-ray Instrument from the Definition section based on the reference NCD

- **Guideline #1.q Xenon Scan**
  
  - Added language based on the reference NCD to indicate:
    - Program payment may be made for this diagnostic procedure which involves perfusion lung imaging with 133 xenon. However, review for evidence of abuse which might include absence of reasonable indications, inappropriate sequence, or excessive number or kinds of procedures used in the care of individual patients.

- **Definitions**
  
  - Moved to Section I the definition of:
    - Portable Hand Held X-ray Equipment
    - Percutaneous Image Guided Breast Biopsy
  
  - Deleted definition of Transillumination Light (no CMS reference available)

06/24/2013  Annual review; no updates

06/18/2012  

- **Guidelines #1.k Magnetic Resonance Imaging (MRI)**
  
  - Updated to include noncoverage language for MRI with specific contraindications (based on MRI NCD 220.2)
  
  - Updated the reference/link to the UnitedHealthcare Physician Guidelines Evidenced Based regarding Imaging

- **Guidelines #1.1 Magnetic Resonance Angiography (MRA)**
  
  - updated the reference/link to the UnitedHealthcare Physician Guidelines Evidenced Based regarding Imaging.

06/30/2011  

- Deleted the section for Intravascular Coronary Ultrasound

- Moved to the CS for Cardiovascular Diagnostic Procedures

- Added the definition of Diagnostic Services

02/21/2011  Updated to further clarify guidelines to use for MRA and MRI when there are no specific state LCDs for uses of MRA and MRI not specifically addressed by the NCDs

02/07/2011  

- Updated Section III (References)

- Deleted references that are no longer used in the CS

- Moved current references under Guidelines #1
